

How Does Billing Work for Swim Meets?

9/2025

It begins with the Swim Meet Event information. Swim meet Directors generally attach a very long document in the Forms/Documents section at the bottom of the Event Details pop-up. The basic meet fees are in that document

Next piece is the coaches travel to and from swim meets. Coaches get paid both for their time and their travel. The cost to each swimmer is dependent on the number of swimmers who go to a meet. The Coach Travel Fees on a bill are computed using round-trip mileage from the Lawrence Indoor Aquatic Center to the swim meet at the current IRS mileage rate + \$10 coaching fee/swimmer. If the swim meet is far away than the total fees would include coaches hotel at the Current GSA standard rate and meals outside of meet hospitality. Once this is ,it is divided by the total number of swimmers attending the meet. T

Important NOTES: Meet fees are charged regardless of whether the swimmer actually swims or not. The Host Team for the swim meet has held that person's spot and completed preparations for USA Swimming tracking of individual swimmers. Coach Travel Fees are only charged if the swimmer actually swims the meet.
